

HB 2685 -- LIBRARIES PURCHASING REAL PROPERTY

SPONSOR: Plocher

This bill prohibits certain libraries from using their property for any purpose that violates the zoning ordinance of the county. If the library board votes to purchase real property, only those board members that are eligible for another term are authorized to vote on the purchase. Before purchasing property, the library must provide notice to the public that contains the price the library will pay for the property, the appraised value of the property, and the methodology used to determine the appraised value.
