FISCAL ANALYSIS

ASSUMPTION

Officials from the **Missouri Consolidated Health Care Plan (MCHCP)** state that MCHCP’s contract includes 100 percent pass through of all rebates received by its Pharmacy Benefit’s Manager (PMB) to the Plan, which are then used to reduce premiums. With point-of-sale (POS) rebates, the amount of rebates that MCHCP could receive would go down and premiums could go up. The proposed bill applies to insulin only, so the impact would be less. However, the insulin category is one of the biggest categories for rebates, so it could still have an impact. MCHCP’s actuary estimates the POS rebate impact to be unknown but less than \$100,000.

Oversight assumes the fiscal impact to MCHCP is an indirect cost (reduction of rebates may increase member premiums); therefore, Oversight will not reflect a cost to MCHCP as a result of this proposal. Oversight notes, if this results in an increase in premiums, the state could elect to pick up that additional costs. However, Oversight assumes this to be a potential indirect cost to the state.

Officials from the **Department of Commerce and Insurance**, the **Department of Social Services**, the **Department of Health and Senior Services**, the **Office of Administration**, the **Department of Transportation**, the **Office of Administration - Administrative Hearing Commission** and the **Missouri Department of Conservation** each assume the proposal will have no fiscal impact on their respective organizations.

Oversight notes that the above mentioned agencies have stated the proposal would not have a direct fiscal impact on their organization. Oversight does not have any information to the contrary. Therefore, Oversight will reflect a zero impact on the fiscal note.

Officials from the **Department of Public Safety - Missouri Highway Patrol** defer to the Department of Transportation to estimate the fiscal impact of the proposed legislation on their respective organization.

FISCAL DESCRIPTION
