

HB 140 -- DEPARTMENT OF CONSERVATION

SPONSOR: Pietzman

This bill requires the Department of Conservation, for the first two years after the effective date of any new administrative penalty imposed by rule, to provide at least one warning before imposing the penalty on an individual or entity. The requirement to issue a warning does not apply to modifications of a rule or regulation that only establishes seasons or limits and does not modify an administrative penalty.

This bill is similar to HCS HB 2528 (2020).
