

HB 400 -- FLOWER PURCHASES

SPONSOR: Ingle

This bill creates the "Missouri Grown Flowers Act."

Beginning January 1, 2022, a public agency must only purchase a cut flower or a cut green if that cut flower or cut green was produced in Missouri. If a cut flower or cut green is unavailable for purchase in Missouri, then the agency may purchase a cut flower or cut green that is produced in the United States.

This bill is similar to HB 1614 (2020).
