**DISTRICT
DIRECTORY**

**STATE REPRESENTATIVE
VIC ALLRED
13TH DISTRICT**

Dear Friend,

Your state and local governments are here to serve you. However, finding the resource when you have a problem or need information may be difficult. This directory is intended to serve as an easy reference guide for residents of our district.

I hope you find this directory helpful. If I can ever provide assistance, please do not hesitate to contact me by calling, emailing, or stopping by my office.

As always, it is an honor and privilege to serve you.

Your State Representative,

A handwritten signature in black ink, appearing to read "Vic Allred".

SELECTED BILLS TRULY AGREED TO AND FINALLY PASSED BY THE GENERAL ASSEMBLY

You can determine the effective date of a bill, usually but not always August 28th, by going to *house.mo.gov*.

The Legislative Library (573-751-4633) can also answer questions on bill status and content.

Fast Track (SB 68) – Provides grants for Missouri citizens over the age of 25 to attend an approved Missouri postsecondary institution. The intent of the bill is to give adults whose income is below the Missouri average an opportunity to gain skills that can boost their earning potential and prepare them for work in high-demand occupations. The program provides short-term training in fields like manufacturing, nursing, welding, and information technology. Grant funding can be renewed, but the student must continue to meet the eligibility requirements and demonstrate a grade-point average of at least a 2.5 on a 4.0 scale.

Missouri One Start (SB 68) – Allows the Missouri Department of Economic Development to improve and consolidate its workforce development programs. Missouri One Start is meant to improve Missouri's workforce programs that help businesses recruit and train large numbers of job applicants during major expansions. The changes made to the programs make them easier for businesses to navigate and also enacts performance-based funding for training providers.

Missouri Works – Deal Closing Fund (SB 68) – Gives the Missouri Department of Economic Development an additional tool to bring new jobs to Missouri. The bill modifies an existing state program to establish a closing fund the department can use to make agreements with companies to create new jobs in the state. The bill enhances the existing Missouri Works Program, which helps businesses access capital through withholdings or tax credits, to embark on facility expansions in an effort to create jobs.

Automotive Economic Development Tools (SB 68) – Provides tax credits to a qualified manufacturing company that invests \$500 million or more in plant upgrades. The bill provides \$5 million annually in credits for 5 years, and a company can qualify for an additional 5 years of credits if it makes an additional \$250 million investment. The bill is in part meant to incentivize General Motors to make a \$1 billion expansion to its plant in Wentzville.

New Limits to Abortion (HB 126) – Specifies that an abortion shall not be performed or induced upon a woman at eight weeks gestational age or later, except in cases of medical emergency. The language does not make a specific exception for rape or incest. A person who knowingly violates these provisions shall be guilty of a class B felony, as well as subject to suspension or revocation of his or her professional license. A woman upon whom an abortion is performed or induced in violation of these provisions shall not be prosecuted for a conspiracy to violate the provisions of this bill.

Fighting Sex Trafficking (HB 397) – Changes laws to fight sex trafficking and prostitution, and states that if the court determines that the person was under 18 years of age when committing the offense, the court shall enter an order of expungement.

Hailey’s Law (HB 397) – Improves the state’s Amber Alert System to better protect children. The bill is known as Hailey’s Law in honor of Hailey Owens, who was abducted and murdered at the age of 10 while walking home from a friend’s house. The legislation requires the Amber Alert System to be tied into the Missouri Uniform Law Enforcement System (MULES), which is the computer system that allows all law enforcement in Missouri to communicate. That means once an officer enters information about a missing child into MULES, it would immediately be available to the Amber Alert System.

Simon’s Law (HB 397) and (HB 138) – Prevents do-not-resuscitate orders from being issued for Missouri children without a parent being aware. Commonly referred to as Simon’s Law, the legislation prohibits a health care facility, nursing home, physician, nurse, or medical staff from putting such an order in a child’s file without a parent’s permission. That permission may be written or given orally in the presence of at least two witnesses.

Nathan’s Law (HB 397) – Limits the total number of children allowed at an unlicensed day care to six with a maximum of three children under age two. The provision is named in honor of Nathan Blech, who died in 2007 after suffocating at an unlicensed day care. It was later determined the day care operator was watching more children than recommended. Children who live in the caregiver’s home and who are eligible for enrollment in a public kindergarten, elementary, or high school are not included in the total.

Sentencing Reform (HB 192) – Gives judges greater discretion when sentencing nonviolent offenders. The bill is meant to help nonviolent offenders get a second chance and to slow the growth of Missouri’s prison population. The bill allows judges to issue sentences below Missouri’s current minimum sentencing requirements with exceptions to certain offenses.

Preventing Debtors’ Prison (HB 192) – Keeps judges from putting people back in jail for failing to pay the cost of previous jail stays. The bill keeps a person’s failure to pay from resulting in more jail time that would result in additional housing costs. Instead, counties may use civil means to collect such costs or a judge may waive those costs. The bill prevents a warrant from being used solely because of the failure to pay costs.

Expungement Expansion (SB 1) – Expands the list of crimes that can be expunged from a person’s record. The bill adds to a law that was passed in 2016 and went into effect in 2018 that allows individuals to seek expungements for many nonviolent felony and misdemeanor crimes. This year’s legislation adds stealing, credit card fraud, possession of a forging instrument, and property damage in excess of \$750 to the list of offenses that are eligible for expungement. The bill is meant to give nonviolent offenders a second chance and an opportunity to obtain employment and affordable housing.

Joinder and Venue Reform (SB 7) – Modifies provisions of civil procedure regarding joinder and venue. The changes approved by the legislature reflect a ruling made in February by the Missouri Supreme Court. The court ruled 4 to 3 that a St. Louis City circuit court judge incorrectly allowed a suit by a St. Louis County plaintiff against a New Jersey-based company to move forward in his court. Proponents believe the bill reduces costs and increases access for Missouri residents to the court system by lowering the number of cases filed in Missouri courts by plaintiffs with no connection to the state. Opponents believe it makes it more difficult and costly for multiple plaintiffs to bring civil lawsuits in Missouri courts seeking damages for alleged injuries.

Bonding Plan for Bridge Repair (SCR 14) – Supports the issuance of \$301 million in bonds by the Missouri Highways and Transportation Commission to pay for the construction and repair of bridges on the state highway system. When fully implemented, the infrastructure plan will allow Missouri to fix 215 bridges identified by local entities as most in need of critical repair or replacement. The plan will only take effect if MoDOT receives and accepts potential federal Infrastructure for Rebuilding America (INFRA) grants for road and bridge purposes.

Preventing Opioid-Related Deaths (HB 399) and (SB 514) – Allows patients who are being treated for opioid use disorders to receive their medications without the need for prior authorization. *(HB 399 has been Vetoed)*

Care for Children with Developmental Disabilities (HB 399) and (SB 514) – Expands the existing insurance coverage requirement for children with autism to include children with other disabilities and adds therapeutic care for developmental or physical disabilities to the insurance coverage requirement for autism spectrum disorders. The bill specifies that autism spectrum disorder will not be subject to any limits on the number of visits an individual may make to an autism service provider. Coverage for therapeutic care for developmental or physical disabilities may be limited to a number of visits per calendar year; however, the bill provides for coverage for additional visits if they are approved and deemed medically necessary by the health benefit plan. *(HB 399 has been Vetoed)*

Hearing Aids for Low-Income Missourians (SB 101) – Creates a hearing aid distribution program for low-income Missourians who are deaf or hard of hearing. The program created by the bill will provide financial assistance to deaf or hard of hearing Missourians who earn less than the federal poverty level. The bill requires the assessment for the distribution of hearing aids to be performed by licensed audiologists, hearing instrument specialists, or licensed physicians. The bill also creates a Statewide Hearing Aid Distribution Fund to provide funding for the program.

Protecting Taxpayer Dollars (HB 1088) – Increases transparency for taxpayers so they are aware of what the state is doing with their tax dollars. The bill requires the Office of Administration to submit a report on specified projects that are one year behind schedule or \$1 million or more over original cost estimates to the General Assembly. The report will also be posted to the Office of Administration website.
